## STATE OF UTAH DEPARTMENT OF NATURAL RESOURCES DIVISION OF OIL, GAS AND MINING

355 West North Temple 3 Triad Center, Suite 350 Salt Lake City, Utah 84180-1203 (801) 538-5340

Fax: (801) 359-3940

## NOTICE OF INTENTION TO COMMENCE SMALL MINING OPERATIONS

The informational requirements of this form are based on provisions of the Mined Land Reclamation Act, Title 40-8, Utah Code Annotated 1987, and the General Rules as promulgated under the Utah Minerals Regulatory Program.

"Small Mining Operations" means mining operations which disturb five or less surface acres at any given time.

I. GENERAL INFORMATION (Rule R647-3-104)

1.	Name of Mine: Silver Bell Mill site						
2.	Name of Operator/Applicant: Silver Bell Mining Co., Inc.  Company () Corporation () Partnership () Individual ()						
3.	Permanent Address: 951 E95+ 830 South  City: Pleasant Grove State: Utoh Zip Code: 84062  Telephone Number: (801) 785-1115						
4.	Ownership of Land Surface:						
Private	(Fee) № Public Domain (BLM) □ National Forest (USFS) □						
	rust Land/School Sections □ State Sovereign Lands □						
Other (	please describe): Deer Trail Mill site Lot 42B						
Name_	Unico, hc. Address PO Box 977 Magalia, Calif. 9584

		areas to be disturbed should be the ground. It is recommende disturbances in the immediate	d that the	operato	r also plot	and label	•	

## III. OPERATION PLAN (Rule R647-3-106)

1.	Type of mining: Surface  ✓ Underground □				
2.	Mineral(s) to be mined:				
3.	Provide a brief description of the proposed mining operation and onsite processing facilities. mill site facility for over benefation of Silver Beil over and other over from time to time -				
	Lor final reclamation				
	☐ New Road(s): Length (ft) Width (ft)				
	☐ Improved Road(s): Length (ft) Width (ft)				
	Total project surface acreage to be disturbed: /ess Than 5 (acres)				
	Proposed startup date of project (month, year) Moy 2000				
	Proposed completion date of project, if known (month, year) on going				

## IV. OPERATION AND RECLAMATION PRACTICES (Rule R647-3-107, 108 & 109)

The reclamation and operation obligation is to keep the area clean and safe, minimize hazards to public safety, return the land to a useful condition, and reestablish at least 70 percent of the premining vegetative ground cover. To accomplish this, the operator will need to perform reclamation concurrently, or at the completion (within one (1) year) of mining:

- 1. Keep the mining operation in a safe, clean, and environmentally stable condition.
- 2. Permanently seal all shafts and tunnels to prevent unauthorized or accidental entry.
- 3. Plug drill holes with a five foot cement surface plug. Holes that encounter fluids are to be plugged in the subsurface to prevent aquifer contamination.
- 4. Construct berms, fences, or barriers, when needed, above highwalls and excavations.
- 5. Remove, isolate, or neutralize all toxic materials in a manner compatible with federal and state regulations.
- 6. Remove all waste or debris from stream channels.
- 7. Dispose of any trash, scrap metal, wood, machinery, and buildings.
- 8. Conduct mining activities so as to minimize erosion and control sediment.

- 9. Reclaim all roads that are not part of a permanent transportation system.
- 10. Stockpile topsoil and suitable overburden prior to mining.
- 11. Stabilize highwalls by backfilling or rounding to 45 degrees or less, where feasible; reshape the land to near its original contour, and redistribute the topsoil and suitable overburden.
- 12. Properly prepare seedbed to a depth of six inches by ripping, discing, or harrowing.
- 13. Reseed disturbed areas with adaptable species. (The Division recommends seeding 20 lbs./acre of native and introduced species of grass, forb, and browse seed, and will provide a specific species list if requested.)
- 14. Plant the seed with a rangeland or farm drill, or if broadcast seeded, harrow or rake the seed 1/4-1/2 inch into the soil fall is the preferred time to seed.

V.	VARIANC	E REQUEST (Rule R647-3-110)
	Yes 🗆	No \$4
	viations from Rules R647-3-107, Operation Practices, R647-3-108, Hole Plugging r R647-3-109, Reclamation Practices, as summarized above, should be identified ication given for the variance request(s).	
	Item Number	Variance Request Justification
VI.	. <u>SIGNATUI</u>	RE REQUIREMENT

required by the Utah Mined Land Reclamation Act (40-8) and the rules as specified by the Board of Oil, Gas and Mining.

Signature of Operator/Applicant:

Name (typed or printed):

Title/Position (if applicable):

Date:

10 May 2000

I hereby commit to conduct mining operations and to reclaim the aforementioned small mine as
